Título: Turn Key Truckmount Setup With Everything You Need

Precio: 9,500.00

Reference Number: UCC54636

Publicado: 18.04.2023

Descripción:

22HP Predator Engine (Installed January 2022. Around 50 hours on it. Briggs had ~1300 hours when I replaced it with the new engine.)

Sutorbilt 3MP Blower

Cat Pump Model 290

Little Giant 3HT Propane Heater

65 Gallon Waste Tank

55 Gallon Fresh Water Tank

The pump wasn't enough to spin the TH-15 properly, so I purchased a Canpump Electric Pressure Washer for tile cleaning. This is also included in the sale.

The only thing that doesn't work properly on this machine is the chemical injection for the pump. I disconnected it from the pump, so the machine still works as supposed to.

Mounted inside of a 2017 Covered Wagon 6x12 Enclosed Trailer with bed liner coated interior.

Has chemical storage shelving, along with a storage shelf in the front of the trailer.

Has hose reels with 200 feet of Vac hose, 200 feet of high pressure hose, and freshwater hose.

Comes with everything I own related to the business. Including:

2 Jet 1.5 Inch Wand

TH-15 Tile Spinner

TMF UV Light

AR50 Cobra Hand Tool For Tile

Sapphire Scientific Upholstery Tool

Oreck Orbiter XL with multiple brushes
Basic 1 jet upholstery tool
2 air movers (1 small & 1 large)
2 Grout Brushes and carpet rake

Also will throw in all chemicals that I have, along with spotter bag. Probably around \$500 worth of chemicals
