### Description:

Introducing the most affordable and sought after carpet cleaning machine out there, the Prochem Performer Liquid Cooled system. Very low hours on this machine only clocking in at 2,327 hours. I just had a full service on the truck mount. The Oil was changed on truckmount, cat pump, and blower right before listing! As well as a full tune-up with new sparkplugs and wires. I also had the waste tank seals replaced and cleaned out completely. I purchased the van, truck mount combo and some of the equipment from someone who built these for a living. This was his personal machine and built it to last and to have minimal maintenance.

The Van is a beautiful Ford E350 with new and expensive \$1,200 Michelin all terrain tires new dot dates on those, fresh oil change on all components such as transfer case and engine, along with transmission and tune-up as well as all grease points being greased and good to go. The engine only has 136,491 miles on it. The transmission was rebuild at 119,000 miles with that being an optimal situation for a new buyer as it has so much life left. I've maintained the van, truckmount and all of the equipment well before it ever needed it. I took pride in having top notch communication and running equipment for my customers. We ran a 5 star company on Yelp and Facebook for 8+ years. I'm happy to share the links for Yelp and Facebook so you're able to see how we ran our business.

The equipment listed below:

(All tools were just serviced cleaning and sanitized, all heads cleaned or replaced, filters all cleaned out and any connections replaced if needed.)
