Description:

Bought this van just before the pandemic hit...never got the business going and now on to other things. Van has been sitting for several years. Van and machine started well when I last used it. Batteries are dead now. The heat exchanger froze at some point and needs to be replaced. It has been removed. (See video). Definitely needs a little TLC...but the right person could get it cleaned up and making money in a few days. The van comes fully equipped. Call with questions.
